

The image features a close-up, vertical view of a wooden surface with a prominent grain pattern. The wood is a warm, medium-brown color. The grain runs vertically, with alternating light and dark bands. The lighting is soft, highlighting the texture of the wood. In the center of the image, the word "KARAVA" is written in a bold, white, sans-serif font. The letters are slightly shadowed, giving them a three-dimensional appearance as if they are floating or attached to the wood. The overall composition is simple and focuses on the natural texture of the wood and the clean typography of the brand name.

KARAVA

Wood products – top quality tailored to your dimensions

Wood always has a heart, soul and story. Let us know what kind of story you want to tell. We will tell you how to bring it to life.

Do you dream of an individually designed sauna, stunning timber cladding on your interior walls, or maybe an eye-catching wooden terrace? Do you need stylish moldings to give your space the finishing touches? Or are you looking for other products made of wood?

All our wood products are manufactured using our own first-class materials and the newest technologies. This is our way of providing not only superior quality, but also an individual touch. In addition to our standard range, you can order products customized to your wishes and dimensions. We are also happy to help you with the design process if necessary.

We use various kinds of wood in their natural forms or in the form of processed, thermally modified wood. Our FSC® certification (C123987) signifies that we contribute to the sustainable use of the world's forest resources.

Panels for interior cladding

Karava panels allow you to create an individual style and atmosphere in all your interior spaces, exactly as you wish.

Our standard range includes Kallio panel profiles in sizes 15×70, 15×90, 15×120 and 15×140, as well as Kallio Groove panels, STP in size 15×90, and finger panel.

STP

STP is the classic sauna panel profile. We manufacture STP panels from the following types of wood: aspen, alder and thermo aspen. The panels are 15 mm thick and 90 mm wide. Their effective width is 81 mm. STP panels in size 15×90 are available as a stock product, which enables fast delivery. The standard lengths of aspen, alder and thermo aspen panels are 1.8, 2.1, 2.4, 2.7 and 3 m. You can also contact us to discuss other lengths.

STP 15x90 | Effective width: 81 mm | Use per square meter: 12.3 m | Package size: 6 pcs

Kallio 15×70/90, 15×120/140 and 17×118/140

We manufacture Kallio panels from the following types of wood: aspen, alder, thermo aspen, thermo alder and thermo pine. Kallio panels feature a 3 mm wide continuous joint and R2 rounded edges. They can be blind nailed or face nailed to the wall. Kallio panels are available as a stock product, which enables fast delivery. The standard lengths of aspen, alder and thermo aspen panels are 1.8, 2.1, 2.4, 2.7 and 3 m. The standard lengths of thermo pine panels are 3–5.4 m. You can also contact us to discuss other lengths.

Kallio 15x70 | Effective width: 57 mm | Use per square meter: 17.5 m | Package size: 6 pcs

Kallio 15x90 | Effective width: 77 mm | Use per square meter: 13 m | Package size: 6 pcs

Kallio 15x90 | Effective width: 77 mm | Use per square meter: 13 m | Package size: 6 pcs

Thermo pine

Kallio 17x140 | Effective width: 127 mm | Use per square meter: 7.9 m | Package size: 5 pcs

Kallio Groove

The Kallio Groove panel is a great choice for creating visual effects in the sauna or another interior cladding site. Lighting can be used to make the effect even more impressive. Types of wood available: aspen, alder, thermo aspen and thermo pine. The panel is available with one, two or three grooves, and it can be either blind nailed or face nailed to the wall. The standard lengths of aspen, alder and thermo aspen panels are 1.8, 2.1, 2.4, 2.7 and 3 m. The standard lengths of thermo pine panels are 3–5.4 m. You can also contact us to discuss other lengths.

Thermo aspen

Finger panel 15×90 | Effective width: 79 mm | Use per square meter: 12.7 m | Package size: 6 pcs

Vuono panel

The modern Vuono panel is an effortless solution for creating 3D surfaces. It gives the impression of a batten accent wall but saves you the trouble of using a separate background material. Vuono is an excellent choice for living spaces, saunas or even bathroom ceilings. Types of wood available: aspen, alder, thermo aspen and thermo pine. The standard lengths of aspen, alder and thermo aspen panels are 1.8, 2.1, 2.4, 2.7 and 3 m. The standard lengths of thermo pine panels are 3–5.4 m. You can also contact us to discuss other lengths.

Vuono 26x88 | Effective width: 76 mm | Use per square meter: 13.2 m | Package size: 3 pcs

Vuono 26x88 | Effective width: 76 mm
Use per square meter: 13.2 m
Package size: 3 pcs

Suisto panel

Suisto is an eye-catching panel that allows you to create a completely unique surface, as each board is different from the next. The play of light and shadow on the panel surface gives the impression of rippling water or shifting sand dunes. We manufacture Suisto panels from thermally modified linden and pine.

Thermo linden

Suisto 15×90
Effective width: 77 mm

Use per square meter: 13 m
Package size: 5 pcs

Thermo pine

Suisto 17×118
Effective width: 107 mm
Use per square meter: 9.4 m
Package size: 5 pcs

Colored products

Our offering also includes colored sauna panels. Color treatment is only available for aspen, as the evenness of the wood guarantees a good result. We can also color bench boards and moldings for you. The products are colored by hand. The coloring is done using Tikkurila Supi Saunavaha wood wax, and the ready-mixed options are white, gray and black. The wax can also be tinted to other colors from Tikkurila's color card for translucent interior colors. In addition, you can order your sauna panels and benches with paraffin oil treatment. Special colors are available for a separate price.

Colored panels 15×70 / 90 / 120 / 140 mm

Colored bench boards 28×28 / 40 / 90 / 120 / 140 mm

Sauna benches

Not all sauna benches are the same. You can rely on us for stylish, durable benches that fulfil all your wishes. Choose from our broad selection or let us design a set exclusively for you.

The benches make the sauna. The key is to find the solution that meets your personal needs. Our standard range of benches is available in the following sizes:
28×28 / 40 / 90 / 120 / 140.

Benches from glued laminated timber

Aspen

Alder

Thermo aspen

Glued laminated timber bench 40×200 | Only available as bespoke bench sets, not by the meter.

Aspen, waxed white

Bench 40×150-300

If you are looking for a bench that is even sturdier than usual, look no further. The glued laminated timber structure ensures that even very wide boards stay dimensionally stable without warping or twisting. We manufacture 40 mm thick and 150 to 300 mm wide benches from the following types of wood: alder, aspen and thermo aspen. The edges of the bench boards are R2 rounded. Lengths range from 2.1 m to 3 m.

Bench 40×150-300 | Glue: Kiilto WR05

Bench 28×28/40/90/120/140

We manufacture bench boards from the following types of wood: aspen, alder and thermo aspen. The benches are available as a stock product, so delivery times are typically short. The standard lengths are 1.8, 2.1, 2.4, 2.7 and 3 m. You can also contact us to discuss other lengths.

Bench 28×28 | Package size: 9 pcs | The edges of the bench boards are R2 rounded.

Bench 28×40 | Package size: 8 pcs | The edges of the bench boards are R4 rounded.

Bench 28×140 | Package size: 2 pcs | The edges of the bench boards are R2 rounded.

Thermo pine bench 26×90/117/140

We manufacture 26 mm thick and 90/117/140 mm wide benches from thermo pine. The benches are available as a stock product, so delivery times are typically short. Lengths range from 3 m to 5.4 m.

Bench 26×90

Package size: 4 pcs

The edges of the bench boards are R4 rounded.

Bench 26×117

Package size: 3 pcs

The edges of the bench boards are R2 rounded.

Bench 26×140

Package size: 2 pcs

The edges of the bench boards are R2 rounded.

Kovera bench

When you want a unique and elegant bench for your sauna, choose Kovera. The Finnish name refers to the concave shape of the seat, which is more than just an aesthetic feature. The gently curved shape also serves important functions. It makes for a very comfortable seat and ensures that water runs down to the middle seam and off the bench. Kovera benches are available in a straight configuration, L configuration, or a corner configuration with a 45-degree angle. The front of the bench includes a groove for lighting as a standard feature. The bottom bench is typically manufactured as a shelf-type platform using wide bench boards. We recommend surface treatment with paraffin oil or Supi Saunavaha wood wax.

Kovera bench 50×490/590

A close-up photograph of wood moldings. The image shows several parallel wooden strips, likely moldings, arranged in a grid pattern. The wood has a warm, reddish-brown tone and a visible grain. The strips are set against a background of a similar wood surface, creating a sense of depth and texture. The lighting is soft, highlighting the natural grain and the smooth finish of the wood.

Moldings put the finishing touches to your interior space, so it is best to select them with care. Karava's standard range includes all the moldings you need: edge molding, cover molding, shadow molding, cove molding and corner molding. We use various types of wood, such as alder, aspen and thermo aspen.

Cover molding

Whatever you need to cover, do it in style. Karava offers beautiful cover moldings to fit any application. Types of wood available: aspen, alder and thermo aspen. For finishing off interior spaces. Stock product. Standard length: 2.4 m.

Cover molding 12×42

Cover molding 12×70

Cover molding 14×90

Planed board

Choose the best materials for your building or renovation project. Karava offers high-quality planed boards that guarantee a stunning and durable result. Types of wood available: aspen, alder and thermo aspen. For finishing off interior spaces. Standard length: 2.4 m.

Planed board 15x90

Planed board 15x120

Edge molding

Use stylish Karava edge moldings to finish corners, panel ends and other similar edges. Types of wood available: aspen, alder and thermo aspen. For finishing off interior spaces. Standard length: 2.4 m.

Edge molding 24×42 | Coverage: 15 mm

Edge molding 24×24 | Coverage: 15 mm

Corner molding

Karava corner moldings make paneling your sauna even easier and ensure a neat finish. Types of wood available: aspen, alder and thermo aspen. For finishing off interior spaces. Standard length: 2.4 m.

Corner molding 27×27 | Coverage: 15 mm

T-molding

Cover your seams in style with the Karava T-molding. Types of wood available: aspen, alder and thermo aspen. For finishing off interior spaces. Stock product. Standard length: 2.4 m.

T-molding 21×21

Shadow molding

Give your space a vivid accent: Karava shadow moldings produce a captivating shadow effect along the length of the strip. Types of wood available: aspen, alder and thermo aspen. For finishing off interior spaces. Stock product. Standard length: 2.4 m.

Shadow molding 21×21

Cove molding

When you want a truly polished result, use cove moldings to cover the junction where the ceiling meets the wall. Types of wood available: aspen, alder and thermo aspen. For finishing off interior spaces. Stock product. Standard length: 2.4 m.

Cove molding 21×21

We also make various carpentry products in accordance with our customers' wishes. All our products are characterized by two features: high quality and an individual touch. What do you have in mind? Let us know, and we will see how we can help you.
